

Heavy Duty White PVC "Cement" Boots are designed to be worn over the sock. PVC provides an excellent barrier against liquid and chemicals. Easy cleaning.

**Features and Benefits:**

- Extra layer of PVC on toe and heel for extended wear. PVC can be cut for the perfect length.
- Wider boot opening allows easier donning. Worn over sock.
- Textured sole for traction. Wider tread on sole for easier removal of debris in boot cleaning process. Eliminates repeated cleaning saving time & money.
